PROBE OF ROCKEFELLER CALLED OFF

Jekyll Island, Ga., Feb. 8.—The interrogation of William Rockefeller by Chairman Pujo and Attorney Untermeyer of the house money trust investigating committee came to an abrupt close after twelve minutes of questioning when the Standard Oil millionaire collapsed.

The millionaire's doctor declared Rockefeller might die if the examination were continued. Chairman Pujo said an examination was impossible, and it is probable Rockefeller's testimony will never be taken.

FAMILY LIVED IN SEWER

Paris, Feb. 8.—The latest discovery in Paris is a family living in a sewer.

Paul Hatin was out of a job. His wife, sister and five children were ousted from their home for failing to pay rent.

Hatin found an open sewer which workmen had recently left. He lowered his household effects into it and the whole family moved in.

The workmen, however, returned to work and Hatin was ousted again. The workmen gave Hatin money to help toward getting into some sort of a home.
